

At their December 15, 2015 meeting, the Board of Education adopted the following Purpose Statements:

- ✚ To align our school day with our vision statement;
- ✚ To focus on academics while fostering the development of the whole child;
- ✚ To engage students in learning that is productive and relevant;
- ✚ To create an environment where students can feel safe to fully participate in their education and work toward achieving their goals and aspirations; and
- ✚ To provide skills, training, and experience that prepares ALL students for the next educational level, career path, or employment.

The purpose statements focus on student success. They are statements of shared values and beliefs about teaching and learning and must be reviewed, revised as needed and communicated system-wide.
